Simon Zeidan

I'm a software engineer with 4 years of experience in front-end development using different programming technologies and languages. Also, I'm continually evaluating and upgrading my skills to stay at the cutting edge of software development.

Work Experience

Web Developer **NEXtCARE (Allianz Partners)** **June 2023–Present**

Finance team Beirut, Lebanon

- Building key Angular Components needed for business use, ensuring they work smoothy.
- Managed and improved a collection of shared parts used in Angular projects, making development easier and keeping everything consistent.
- Worked closely with back-end teams to connect front-end designs with powerful back-end systems, making sure everything runs smoothy.
- Turned design ideas into real components, while working closely with designers to create user-friendly interfaces.
- Helped the finance team developing front-end solutions, making the web interface work faster and more accurate beside fixing front-end bugs.
- Designed Angular parts that work well and can be used in different projects, saving time and resources.
- Wrote easy-to-follow guides for the Angular parts we made, helping everyone understand and use them effectively.
- Worked using agile methodologies in a flexible way (using Jira), making sure we deliver updates and improvements regularly.

Software Engineer I **AiiA Solutions** **2021–2023**

Front-end team Beirut, Lebanon

- Worked primarily as afront-end developer on company's different systems.
- Collaborated with senior developers to design, implement and test new features.
- Developed Rest Full API's using Django Framework.

Full Stack Developer Intern **TECHlarious** **Winter 2023**

Beirut, Lebanon

- Worked on developing web applications using MERN stack technologies.
- Worked on a project to build a food delivery system web application using Express.js and React.js.

Technologies and Languages

- Languages: Python, TypeScript, JavaScript, Dart, C, C++, C#
- Frameworks: Angular, Express.js, Flutter, Next.js
- Technologies: React, Node.js, MySQL, Postgres, MongoDB, AWS, Git, OOP, Ansible, SQL, CSS, SCSS
- Other: Angular Material, Data structures and algorithms, Great problem-solving skills, Quick learner

Education and Certifications

- **B.Sc. Computer Science,** Lebanese University – Faculty of Science. **2016–2021**

Projects

- Build a personal portfolio from scratch, reference: https://simonzeidan.github.io/Portfolio .
- Analyze and study Ansible, an automation tool, where I wrote a well-documented step by step document on how to use and install ansible. For reference: Ansible Automation Tool Document.

Certificates

- Full Stack Developer Bootcamp (TECHlarious).
- The Complete ReactJS Course-Basic to Advance [2022] (Udemy).
- PCAP-Programming Essentials in Python (Python Institute).
- Learn to Build Interactive Modern Web Apps with Angular 13+.
- Cloud Computing and Amazon Web Services (AWS) Fundamentals.
